Accenture Pattern & Syllabus

Job Roles:

- **Associate Software Engineer(ASE)**
- **Software Engineer(SE)**

Packages:

- **Associate Software Engineer (4.5 LPA)**
- **Software Engineer (6.5 LPA)**

Eligibility Criteria:

- All streams/branches of B.E/B.Tech/M.E/M.Tech, MCA, and M.Sc. (CSE, IT only) from 2023 year of pass outs with full-time education only (Part-time and distance educations are not considered)
- MBA /PGDBM candidates are not eligible to apply for this role
- No active backlogs during application and/or during onboarding.
- You should have completed your relevant degree (eligible for this job role), in the stipulated duration of the degree. Hence, there should be no gaps during the course of your degree.
- Candidate should not have appeared for Accenture Recruitment assessment/interview process in the last three months.
- Candidate should not have more than 11 months of experience
- Candidates must be eligible to work in India either by citizenship/ have relevant work permit documents.
- Please note that Bhutan and Nepal nationals can work in India without a need for obtaining a work visa. All other foreign nationals require work visa or an Overseas Citizenship of India (OCI) or Person of Indian Origin (PIO) card to work in India
- You are willing to work in any Business Unit/Service line within the company
- You are willing to join /relocate to any Accenture office across India

---

Accenture Recruitment Process

1. **Coginitive and Technical Assessment**
2. **Coding Round**
3. **Communication Assessment**
4. **Interview Round**

Section wise details

1. **English Ability (17 Que)**
2. **Critical Reasoning & Problem Solving (18 Que)**
3. **Abstract Reasoning (15 Que)**
4. **Common Applications & MS Office (12 Que)**
5. **Pseudocode (18 Que)**
6. **Networking Security& Cloud (10 Que)**

Communication test round

1. **Reading (8 Que)**
2. **Listening/Repeat (16 Que)**
3. **Q&A (24 Que)**
4. **Sentence Jumble/ Sentence Builds (10 Que)**
5. **Story Telling (3 Que)**
6. **Speaking (2 Que)**

Note: Total time given for communication test will be 20 Min. This will not be elimination round but be well prepared.

Important Topics for Cognitive Assessment

Abstract Reasoning:

- Number & Letter series
- Odd man out
- Analogies
- Coding-Decoding
- Visual reasoning

Critical Reasoning & Problem Solving:

- Data arrangement
- Flow charts
- Data sufficiency
- Argument & Assumption
- Syllogism
- Statement-Conclusion

English Ability:

- Synonyms & Antonyms
- Error detection
- Para jumbles
- Reading comprehension
- Sentence completion/ Fill in the blanks
- Sentence improvement

Important topics for Technical Section

Common Applications & MS Office:

- MS Office (Word, PowerPoint, Excel, Outlook)
- Browsers' fundamentals
- Shortcut keys
- Command prompt
- Working flow of keys

Network Security:

- Basics of Networking
- Network Security
- Encryption standards & Algorithms
- Network security devices
- Attack types
- Firwalls

Cloud:

- Fundamentals of Cloud Computing
- Client server architecture
- Cloud data centers
- Cloud service providers
- Cloud Service Platforms

Pseudocode:

- Programming Fundamentals
- Looping
- Arrays
- Recursion
- Function
- Bitwise Operators
- Increment & Decrement Operators
- Conditional statements
- Basics of Data Structures

Important topics for Coding Section

Coding Round:

- Basics of Programming
- Input & Output Concepts
- Flow Control
- Conditional Looping

- Arrays
- Functions
- Strings
- Data types & Operators

Amazon Pattern & Syllabus

18 January 2023

Job Role: Software Development Engineer

Eligibility Criteria:

- If you are graduate in any of these then you are eligible to apply (B.E/ B.Tech/ M.E/ M.Tech/ BS/ MCA)
- No backlog is allowed in any of your semester throughout your graduation
- You must have at least 60% in your overall academics
- The total gap between your studies should not be more than 1 year.

Hiring Process:

1. **Online Written Test**
2. **Technical Interview 1**
3. **Technical Interview 2**
4. **Amazon Bar Raiser Round**

Test Pattern:

1. **Aptitude**
2. **Technical MCQs**
3. **Automata Fix**
4. **Coding**

Important Topics

Online Written test:

- Quantitatative Aptitude
- Reasoning Aptitude
- Verbal Aptitude

Technical MCQs:

- C Programming
- C++ Programming
- OS
- CN

- Computer Fundamentals

Automata Fix:

- Fundamentals of Programming langauges(C, C++, Java)
- Array
- Strings
- Linked list
- Graph
- Recursion
- Function
- Flow Control

Coding:

- DSA
- Advance Coding
- Tree
- Linked list
- Recursion
- BST

Bosch Pattern & Syllabus

18 January 2023

Job Role : Associate Software Engineer under Mobility Solutions

Package: 7 LPA + Internship with 25k Stipend per month

Hiring Stages:

1st Round (Elimination Round):

Aptitude Section

1**. Quantitative Ability (14 questions in 20 minutes)**
2. Logical Ability (14 Questions in 14 minutes)
3. English Comprehension (22 Questions in 18 minutes)

Core Section

1. Power Electronics and Drivers (5 Questions in 5 minutes)
2. Electronics and Embedded Systems Engineering (25 Questions in 30 minutes)
3. Electronics and Telecommunication Engineering (12 Questions in 15 minutes)

2nd Round:

Technical Interview Round

Duration : 30-35 minutes

1. Introduce yourself
2. To brief about the Mini Project
3. Difference b/w MP & MC
4. Truth Table definition
5. Half Adder truth table & expression
6. Aptitude question based on ages
7. Types of Flip Flops & brief any one among them

Both HR & Technical interview were concluded in single technical round

No Coding Questions

Capgemini Pattern & Syllabus

07 January 2023
Check below information for Recruitment process and important topics for Capgemini

Roles and Packages:

- **Analyst- (4 LPA + 25K One-Time Bonus)**
- **Analyst- New Differential Role (5.5 LPA + 25K One-Time Bonus)**
- **Senior Analyst (7.5 LPA)**

Eligibilty Criteria

- BE/BTECH/ME/MTECH - All specializations/branches; MCA & MSc (CS/IT specialization)
- No active backlog at the time of assessment and joining
- Successful completion of full–time degree within the stipulated time frame

---

Examp Pattern & Syllabus

Assessment 1:

English and Technical MCQ - Cognitive Assessment

Technical MCQ:

- Data Structures
- Algorithms
- Fundamentals of database
- Cloud
- Networking

(Note: For roles specific to your streams technical assessment would comprise of stream specific topics)

1. Pseudo Code Round (Elimination Round)

- Total 25 Questions (25 mins)
- 25 questions divided into 2 sections with common timer
- 10 Questions: Data Structures

- 15 Questions: Algorithms / Psuedocode

(Important Topics: Data Structres, Programming Fundamentals, Object Oriented Programming, Networking, Cloud fundamental Questions, Code Snippet Questions on C, C++ and Java)

Note: There is No Negative marking.

2. Technical MCQs (Elimination round)

Networking

- Basics of Networking
- Network Security
- Encryption Standards and Algorithms
- Attack Types
- Firewalls

Database

- Database relationship
- Database operators
- Normalization
- Joins
- Keys
- Constraints
- Relational Algebra

Cloud

- Fundamentals of Cloud Computing
- Client Server Architecture
- Cloud Data Centers
- Cloud Service Providers
- Cloud Service Platforms

Note: There is No Negative marking.

3. Game Based Aptitude Round: (Elimination Round)

- Motion Challenge
- Digit Challenge
- Switch Challenge
- Grid Challenge
- Deductive Reasoning Challenge
- Inductive Challenge (Similarity Grids)

Note: Grid Challenge is difficult as the number of dots go on increasing.

4. English MCQ (Elimination Round):

- Reading Comprehension
- Cloze Test
- Para Jumble / Sentence Arrangement
- Active / Passive Voice
- Fact, Inference, Judgement
- Replacement / Sentence Correction
- Synonyms
- Error Spotting

Note: There is No Negative marking.

Important:

1. Assessment clearance depends on the scores of each module. Each round will be a mandatory, elimination round)

2. Game based Cognitive Assessment and English MCQs are retained (It means, these sections will be there in Assessment 1 this year also)

Assessment 2:

Spoken English Assessment

- This round will be **mandatory but not an elimination** round.
- your Communication skills like Reading, Speaking, Listening skills will be tested in this test.

Assessment 3:

Coding Assessment (For Analyst- New Differential Role & Senior Analyst Role)

- Coding / Level 2 Technical assessment is a mandatory round and will be applicable for students eligible for higher package roles. Eligibility will be a combination of the student's performance in their academics and Capgemini Exceller assessments.

Technical Interview

Capgemini Interview Questions for Technical Round will be based on subjects of your interest or based on projects you have done. You need to have complete knowledge of all the projects you havewritten in your resume. You will be asked basic questions from C, C++, Pseudo Code, and DBMS, Networking

---

HR Interview

In this interivew, only communication skills and presentation skills are checked. The questions will be related to your personality, family, education, hobbies, internships, etc. They will also ask questions based on location preference and higher education interest also

Cognizant GenC Pattern& Syllabus

07 January 2023

Job role and Package:

- **GenC (4 LPA)**

Eligibility Criteria:

- B.E/B.Tech/M.Tech/MCA/M.Sc IT students from 2024 batch
- Branch: Any branch is eligible
- Students should possess consistent academic record with 60% or greater in X, XII, Diploma, UG & PG (all subjects will be taken into consideration) calculated as below.- Aggregate% = sum of all subjects marks scored / total no. of subjects (as of last semester result declared)
- Students with standing arrears or more than 2 years gap in education are not eligible
- At the time of joining, recruits should have an overall aggregate score of 60% or greater (all subjects will be taken into consideration) with no standing arrears
- Aggregate for the Students who have applied for re-evaluation (and are waiting for the results) will be derived based on the initial scores
- CGPA to % conversion will be considered as per University norms
- Opportunities are open only to Indian nationals

Hiring Process for GenC role:

- Round 1: Aptitude Test
- Round 2: Communication test
- Round 3: Subject Matter Interview & HR Interview.

Test Pattern

Aptitude test:

- **Section A: Verbal Ability - 20 Que (20 Min)**
- **Section B: Quantitative Ability - 20 Que (20 Min)**
- **Section C: Gamified round - 3 gaming based sub rounds (20 Min)**

Important:

- You may expect medium level questions for Quantitative Ability section, but time management is important.
- Total time allotted is 60 Min.

Communication test:

The communication round consists following sections:

There are 4 sections

- Section 1: Reading the given sentences.
- Section 2: Listening the audio and repeating the sentences (6 such sentences).
- Section 3: It is just like JAM. They will give a topic and also some time to think about it. After that we need to talk about it for 90 sec.
- Section 4: This is the verbal round which consists of 34 easy verbal questions and the time limit is 15 min.

Note:

Communication round for Cognizant is not an elimination round.

Subject Matter Interview:

This interview includes basic questions on the technical subjects that you learnt during your Bachelor's Degree.

Cognizant GenC Elevate Pattern & Syllabus

07 January 2023

Job role and Package:

- **GenC Elevate (4 LPA + Skill Bonus)**

Eligibility Criteria:

- B.E/B.Tech/M.Tech/MCA/M.Sc IT students from 2024 batch
- Branch: Only circuit branches
- Students should possess consistent academic record with 60% or greater in X, XII, Diploma, UG & PG (all subjects will be taken into consideration) calculated as below.- Aggregate% = sum of all subjects marks scored / total no. of subjects (as of last semester result declared)
- Students with standing arrears or more than 2 years gap in education are not eligible

- At the time of joining, recruits should have an overall aggregate score of 60% or greater (all subjects will be taken into consideration) with no standing arrears
- Aggregate for the Students who have applied for re-evaluation (and are waiting for the results) will be derived based on the initial scores
- CGPA to % conversion will be considered as per University norms
- Opportunities are open only to Indian nationals

Hiring Process for GenC role:

- Round 1: Technical Assessment
- Round 2: Communication test
- Round 3: Technical Interview & HR Interview.

Test Pattern

Technical Assessment:

Section 1: Programming - 3 Que (60 Min)

Section 2: Database Questions - 2 Que (30 Min)

Important:

- *Total time allotted is 90 Min.*

Communication test:

The communication round consists following sections:

There are 4 sections

- Section 1: Reading the given sentences.
- Section 2: Listening the audio and repeating the sentences (6 such sentences).
- Section 3: It is just like JAM. They will give a topic and also some time to think about it. After that we need to talk about it for 90 sec.
- Section 4: This is the verbal round which consists of 34 easy verbal questions and the time limit is 15 min.

Note:

Communication round for Cognizant is not an elimination round.

Important Topics

Programming:

- Strings, Arrays, Recursion, Functions
- DSA
- Digit Separation logic
- Reverse character in string
- Bitwise operators
- Palindrome string
- 2D Array
- GCD Calculation
- Infix expression
- Operator precedence
- Tree reversal

Database questions:

- SQL Queries
- DDL, DML, DCL Commands
- Joins
- Database schemas
- Column based queries
- Keys
- Constraints
- Schema relationship
- Normalization
- Triggers
- Views
- Database operators

Dell Pattern & Syllabus

07 January 2023

Job Roles: Associate Sales Engineer Analyst

Package: 8 LPA + (as per college)

Eligibility Criteria:

- Degree: B.Tech/ BE
- Branches: Computer Science, Information Science / IT, Electronics and Communication, Electrical and Electronics, Electronics and Instrumentation
- Eligibility:- 60% Throughout 10th , 12th and Gradution

Selection Process

1. Online Aptitude Test
2. Technical Interview
3. H.R. Interview

Aptitude Test:

- Quantitative aptitude: 20 Que (20 Min)
- Analytical reasoning: 15 Que (15 Min)
- Verbal ability: 15 Que (15 Min)
- Technical: 40 Que (40 Min)

Important Topics

Verbal Ability:

This section covers all the basic grammar questions which includes fill in the blanks, phrases, sentence completion. This section consists of short reading comprehension passages.

Quantitative Ability:

This section covers the questions from the topic such as algebra, time & work, speed & distance, arithmetic, percentages, probability, permutation & combination, profit & loss, HCF, LCM, geometry etc.

Analytical Ability:

It also checks the analytical ability by designing blood related questions, puzzles, statements and argumentation, coding decoding, data sufficiency and pattern recognition.

Programming syllabus:

This section involves questions from Computer concepts and C language.These questions are quite tough and it requires well preparation.

Deloitte

Deloitte Pattern & Syllabus

07 January 2023

Job role: Business Technology Analyst

Package: 6.5 LPA

Eligibility Criteria:

- Degree: B.E., B.Tech., M.Tech (CS/IT), or MCA degree,
- Academic Score: At least 60% or equivalent CGPA throughout.
- The graduation should be full-time and should be recognized by the Central/State government of India.
- No backlogs at the time of the selection.
- No gap in education

Hiring Process:

1. Online written test
2. JAM Test
3. Interviews

Test Pattern:

1. Quantitative aptitude and Logical reasoning - 20 Que (25 Min)
2. Versant test
3. Verbal ability - 10 Que (10 Min)
4. Computer Fundamentals - 20 Que (25 Min)
5. Coding - 2 Que (30 Min)

Important Topics

Quantitative aptitude

- Number Systems
- Averages
- Percentage
- Simple Interest & Compound Interest
- Time, Speed & Distance
- Geometry
- Coordinate Geometry
- Logarithms

- Quadratic Equations
- Probability
- Permutation & Combination
- Time and Work
- Alligation

Logical reasoning

- Objective Reasoning
- Pattern recognition
- Data sufficiency
- Blood Relation
- Coding deductive logic
- Number series pattern recognition
- Logical word sequence

Versant test

- Reading skills
- Listening skills
- Analytical skills

Verbal ability

- Synonyms
- Antonyms
- Contextual Vocabulary
- Error Identification
- Sentence Correction
- Sentence Improvement
- Subject-Verb agreement
- Tenses and Articles
- Reading Comprehension
- Preposition & Conjunction

Computer Fundamentals

- OOPS Concepts
- DBMS
- Operating System
- Data Structures & Algorithm
- Computer Networks
- MS Office
- Cloud Computing and Network

Coding

- Data Types
- Iteration, Recursion, Decision

- Procedure, functions, and scope
- Arrays, Linked Lists, Trees, Graphs
- Stacks, Queues
- Hash Tables
- Heaps
- Searching and Sorting
- Polymorphism
- Abstraction
- Encapsulation
- Complexity Theory

What is JAM test?

It is also known as Just a Min test. In this test, the assessors will give a case study to candidates and 5 minutes will be given to read it. After that, the candidates are supposed to discuss the case study in 15 minutes.

DXC Technology Pattern & Syllabus

07 January 2023

Check below information for Recruitment process and important topics for DXC Technology

Role and Package:

- **Associate Professional- 4.20 LPA**

Eligibility Criteria:

- Education: 60% and above in 10th, 12th and graduation
- All Engineering branches are allowed
- Not more than 2 years of gap in Education
- No Active backlogs during application and/or during onboarding
- No Service Agreement
- Candidate should be an Indian citizen or should hold a PIO or OCI card, in the event of holding a passport of any other country

---

Online Assessment Pattern:

1. English 12 Que (15 Min)
2. Quantitative Ability 16 Que (16 Min)
3. Logical Ability 14 Que (14 Min)
4. Computer Fundamentals 12 (156 Min)
5. Automata Fix 7 Que (20 MIn)
6. Essay Writing 1 Que (20 Min)

Note:

- *Platform: AMCAT*
- *No Negative marking*
- *Navigating between sections is not allowed*
- *Questions cannot be revisited*

Syllabus and Important Topics:

English:

- Vocabulary

- Reading Comprehension
- Sentence Completion
- Sentence Improvement
- Error spotting
- Idioms
- Fill in the blanks

Quantitative Ability:

- Simplification
- Number System
- Time and Work
- Time, Speed and Distance
- Probability
- Profit and Loss
- Averages
- Percentage
- Simple and Compound Interest
- HCF-6LCM
- Logarithm

Logical Ability:

- Odd man out
- Blood relations
- Coding-Decoding
- Data Sufficiency
- Analogy
- Data Interpretation
- Directional Sense
- Series

Computer Fundamental:

- Programming Fundamentals
- Data Types
- Operators
- Arrays
- Functions
- Pointers
- Basics of OS
- Basics of Data Structure
- Loops
- OOPs Concepts
- Stack
- Sorting
- Tree Functions
- Pseudocode

Automata Fix:

Code Reuse, Code debugging types of questions will be there

- Fundamentals of Programming langauges(C, C++, Java)
- Array
- Strings
- Recursion
- Function
- Flow Control
- Linked list
- Graph

Essay Writing:

- Essay can be asked on any normal topic which is to be written within 20 Min.
- The structure of essay should be short and crips
- Avoid Spelling mistakes
- Avoid Grammatical mistakes

Goldman Sachs Pattern & Syllabus (Internship for 2024 students)

07 January 2023

Job Title: 2023 Summer Internship

Eligibility Criteria:

- Degree: Bachelors Degree
- The program is open for all engineering students across streams meeting the eligibility criteria.
- Graduation in 2024
- How to apply: Please check link at the bottom of this page

Test Pattern for Round 1

Aptitude test:

Sections	No. Of Questions
Numerical Computations	8
Numerical Reasoning	12
Comprehension	10
Abstract Reasoning	12
Diagramatic Reasoning	12
Logical Reasoning	12
Total =	**66**

Marking Scheme:

5 Marks for each correct answer and -2 marks for each wrong answer

Note:

Goldman Sachs will first conduct Aptitude Test and then coursework followed by Technical test depending on coursework.

Important topics

Numerical Computation:

- Time work
- Percentage
- Ratio
- Divisibility
- Profit Loss
- Fractions
- Problems on Train
- Average
- P&C

Numerical Reasoning:

- Letter Series & Number Series
- Finding missing numbers & letters

Comprehension:

2 passages will be there. Each passage will be having 5 questions.

Abstract Reasoning:

Figure based questions like-

- Number of triangles
- folding-unfolding of cut figures

- coding-decoding

Diagrammatic Reasoning:

Figure based questions like-

- Operators
- symbols
- Circuit diagram based questions
- Switch
- Bulb
- And/Or operator based circuit diagram questions
- Dice
- Flowchart based questions

Logical Reasoning:

- Seating arrangements
- Data interpretation
- Coding-Decoding
- Calendar
- Direction sense
- Clock

What about Technical test?

Technical test will take place only after Aptitude test and Coursework.

Hence, right now please focus only on Aptitude test.

HCL Pattern & Syllabus

07 January 2023

Job Role: Software Engineer

Package: 4 LPA

Eligibility Criteria:

- BE/ B.Tech (preference will be given to branches like ECE, CSE, EEE, IT and software)
- Full time degree course
- Minimum 60% marks throughout 10th, 12th and graduation
- No gap is allowed in graduation
- Maximum of 1-year gap is allowed between school and college

---

Hiring Process:

1. Online written test
2. Technical Interview
3. HR Interview

Test Pattern:

- Section 1: English 15 Que (15 Min)
- Section 2: Quantitative Aptitude 15 Que (15 Min)
- Section 3: Logical Ability 15 Que (15 Min)
- Section 4: IT Fundamentals 30 Que (30 Min)
- Section 5: Technical

Note:

- *All sections are mandatory.*
- *There will be sectional timing shown on screen for each section.*
- *No negative marking*

Important Topics

Quantitative Aptitude:

- Time work
- Time, speed, distance
- Pipes and Cisterns
- HCF, LCM
- Permutations and Combinations
- Geometry
- Probability
- Profit loss
- Simple Interest, Compound Interest
- Mixture and Allegations
- Logarithm

English:

- Sentence correction
- Synonyms, Antonyms
- Spelling mistakes
- Fill in the blanks
- Reading Comprehension

Logical Reasoning:

- Coding-Decoding
- Data suffeciency
- Directional sense
- Number series
- Assumptions and Assertions

IT Fundamentals:

- Computer basics
- Data structures
- Object Oriented Programming
- Input-Output
- Networking
- OS
- DBMS

Hexaware Pattern & Syllabus

07 January 2023

Job Profile: Graduate Engineer Trainee

Package: 4 LPA

- *Stipend of 15,000 INR per month for 6 months while on Training period*
- *Service agreement for 2 years*

Eligibility Criteria:

- Graduation: B.Tech/MCA
- Passing year: 2023
- Streams: CSE/IT/ECE/EEE/EIE & MCA
- Aggregate till last announced results: 60% or 6.0 CGPA throughout 10th, 12th and UG/PG
- No active Backlogs
- No gaps in education

Selection process:

Round 1:
Online Aptitude Test: 80 Min

Round 2:
Communication Test: 45 Min

Round 3:
Technical Interview 1: Approx. 30 Min

Round 4:
HR Discussion: Approx. 30 Min

Please note that all rounds are elimination rounds.

Online Aptitude Test:

- **Numerical Ability**: 15 ques

- **Logical Ability:** 15 ques
- **Verbal Ability:** 15 ques
- **Domain Based:** 35 ques

Communication Round:

This round will test your communication skills like reading, listening, writing and speaking skills. This will be an elimination round, hence, prepare well for this round.

Important Topics

Numerical Ability:

- Percentages
- LCM-HCF
- Ages
- Ratio and Proportion
- Profit Loss
- Simple Interest and Compound Interest
- Time Speed Distance
- Probability
- Time and Work
- Pie Chart
- Bar Graph

Reasoning Ability:

- Coding and decoding
- Ranking and Sequence
- Blood relations
- Syllogism
- Arrangements
- Letter Series
- Relationship b/w words
- Visual reasoning
- Odd one out
- Statements and Conclusions
- Statements and Arguments

Verbal Ability:

- Fill in the blanks
- Spelling
- Analogy
- Sentence Ordering
- Error Identification
- Synonyms and Antonyms
- Sentence improvement

- Preposition and Conjunction
- Idioms and phrases
- Reading Comprehension
- Articles
- Speech and Tense

HP Pattern & Syllabus

07 January 2023

Job Roles:- Trainee Engineer, Systems Engineer, Operations Executive, Analyst

Packages: INR Rs 7 LPA to 14 LPA (as per college)

Eligibility Criteria:

- Degree: B.Tech/ BE
- Branches: Computer Science, Information Science / IT, Electronics and Communication, Electrical and Electronics, Electronics and Instrumentation
- Academic score:- 60% Throughout 10th , 12th and Gradution

Selection Process

1. Online Aptitude Test
2. Group Discussion
3. Technical Interview
4. H.R. Interview

Online Aptitude Test Round:

- Quantitative Ability: 12 questions
- Verbal Ability: 8 questions
- Technical Ability: 35 questions

Time given: 75 Min

Technical Interview: An in-person interview will be scheduled for those who pass the online exam. During a technical interview, you will be asked questions about your problem-solving and analytical skills, as well as how you handle pressure and other difficult circumstances.

Your ability to solve problems will also be evaluated throughout this stage of the process.

You will be questioned about your prior work accomplishments and undertakings, as well as the tasks that you performed, the ways in which you leveraged technologies, and the level of success that you achieved. You should get ready by familiarizing yourself with the foundations of computer science. You may also anticipate questions based on the principles of computer science. You may anticipate questions on:

1. Object-Oriented Programming Systems (OOPs)
2. Database Management Systems (DBMS)
3. Computer Networks (CN)
4. Computer Organization and Architecture (CoA)
5. Operating Systems (OS)

There are several factors that go into determining how many technical interviews you have, including your performance in previous rounds, your job description, your background, and the expectations of the company.

HR Interview: - After successfully completing the technical interview, candidates will go on to the next stage with HR. The primary goal of an HR interview is to determine whether or not an applicant is a perfect fit for a particular role based on factors including temperament, background, experience, and other factors. Hence, it is vital that you be well-prepared for your HR interview.

Important Topics

Online Aptitude Test:

English Language

- Fill in the blanks
- Phrases
- Sentence completion
- Short reading comprehension passages

Quantitative Ability

- Algebra
- Tme & work
- Speed & distance
- Arithmetic, percentages

- Probability
- Permutation & combination
- Profit & loss
- HCF, LCM
- Geometry

Analytical Ability

- Relationship based questions
- Puzzles
- Statements and argumentation
- Coding decoding
- Data sufficiency
- Pattern recognition

Programming syllabus

This section involves questions from Computer concepts and C language.These questions are quite tough and it requires proper preparation.

IBM Pattern & Syllabus

07 January 2023
Check below information for Recruitment process and important topics for IBM

Job Roles:- Associate System Engineer

Package: 4.50 LPA + one time settling allowance of Rs. 25000/-

Eligibility Criteria:

- Graduation Year: 2023
- B.E / BTech / MCA / M.E. / MTech / MSc, with 60% / 6.0 CGPA
- no active backlogs
- Branch: CS / IT / Robotics / ISE / EE / ECE / EIE / AEIE / EEE / ETE / Maths & Computing

---

Selection Process: -

1. Online written test
2. Technical Interview
3. HR Interview

Online Aptitude Test Round:

- Virtual Coding Assessment (1 Que - 45 minutes)
- Cognitive Ability Assessment (30 minutes)
- English Language Test: (10 Que -10 Min)
- Virtual Interviews

Note:

- *The coding test will happen on **Hackerrank** platform.*
- *There is no negative marking in the paper.*

Important Topics

Coding Test:

- OOPS concepts
- Data Types
- Iteration, Recursion, Decision
- Procedure, functions and scope
- Complexity Theory
- Arrays, Linked Lists, Trees, Graphs
- Stacks, Queues
- Hash Tables
- Heaps
- Searching and Sorting

Note: Make sure that you have strong fundamental knowledge on coding.

Cognitive Ability Assessment:

1. Move Blue Marbel to the Stars

2. Fill the main area with blocks given

3. Create the Image after rotation

4. Pop the bubbles that are equal to Target

5. Identify Whether Left = Right || Left > Right || Left < Right

English Language Test:

- Fluency (4 minutes)
- Vocabulary (4 minutes)
- Spelling (2 minutes)

Infosys Pattern & Syllabus

07 January 2023
Check below information for Recruitment process and important topics for Infosys

Watch the below video for more details about Infosys (SE role) Hiring (2023 Batch)

Job Role: Senior Engineer

Package: 3.6 LPA

Eligibility Criteria:

- Degree**:** B.E/B.Tech, M.sc graduates in Computer Science/Information Technology.
- Branches: All Branches are allowed.
- Should be from a Full-time Degree course recognized by the Central/State Government of India
- No Backlogs
- Academic scores: 60% or 6 GCPA in 10th and 12th. 65% or 6.5 CGPA in graduation.
- Candidates who have participated in any Infosys Interview process in the last 9 Months are not eligible.
- The education gap should be of maximum 2 years,if any, is allowed between 10th and graduation.

Online Test Pattern

Section	Section Name	Number of Questions	Time (Min)
Section 1	Reasoning Ability	15	25
Section 2	Mathematical Ability	10	35
Section 3	Verbal Ability	20	20
Section 4	Pseudocode	5	10
Section 5	Puzzle Solving	4	10

Important:

- There is no Negative marking
- There are 3 types of questions (MCQ, MAQ, FUB)
- No sectional navigation allowed
- Every question is mandatory

Section wise important topics

Reasoning Ability:

1. Data Interpretation: 5 Questions (5 marks)
2. Data Sufficiency(Multiple charts): 5 Questions (5 marks)
3. Deductive Reasoning (Syllogism, Logical deduction): 5 Questions(5marks)

Mathematical Ability:

1. Coding-Decoding
2. Number series and Letter series
3. Time and Work
4. Time, Speed and Distance
5. Probability
6. Ratio and Proportions
7. Average
8. Percentage
9. Alligations and Mixtures
10. Seating arrangements
11. Permutation and combination
12. Profit and Loss
13. Family tree
14. Direction sense
15. Cryparithmetic

Verbal Ability:

1. Sentence completion (4 Questions)
2. Error correction (4 Questions)
3. Error detection/ Identify correct sentence (4 Questions)
4. Reading comprehension (5 Questions)
5. Critical reasoning (3 Questions)

Important concepts: Tenses, Verbes, Articles, Vocabulary, Prepositions, Subject-Verb agreement, Parallelism

(Note: English is always said to be the toughest of the three sections in the Infosys online test, not because of the number of questions and shorter duration but due to the difficulty of the questions which are usually of GRE and CAT level)

Pseudocode:

1. Loops
2. Operators
3. Nested If-Else conditions
4. Inheritence
5. Method overriding
6. Array
7. Complexity analysis
8. Insertion sorting
9. Resizable array
10. Functions
11. Conditional statements

Important: There will be 5 questions, each carrying 2 marks.

Puzzle Solving:

Number and grid based puzzles

Important: There will be 2 questions of 3 marks each and 2 questions of 2 marks each

---

Technical Interview

Technical interview comprises of questions based on C, C++, Java, Data systems and other operating systems. However, if you belong to a non-IT background, you can expect questions from your specific subject. You might get questions like find the output of the given program, write syntax and programs, Details about your projects, internships and your roles in it.

HR Interview

The HR Interview will check your confidence and communication skills You might get questions like Tell me about yourself?, Why do you want to join Infosys?, About your project? ,Which is your favorite subject?. There also might be questions based on location and post-graduation plans.

InfyTQ 2024 Pattern & Syllabus

07 January 2023

Details about InfyTQ:

InfyTQ is a free learning and certification platform accessible to all engineering students in their third and fourth year across India. The platform enables holistic development by providing technical as well as professional skills and help students become industry ready.

It is a technology certification by Infosys which checks your industrial preparedness and allows you to go for the career of your choice. During the Infosys Certification process, your programming and database knowledge will be put to the test.

Benefits:

You will have the option to participate in Infosys' pre-placement interview for one of the specialist technical roles after completing the test or to attend a technical interview for the position of systems engineer and become an Infosys Certified Software Programmer. The InfyTQ program is conducted annually by Infosys for those seeking to become programming masters. Please check the details of exam pattern and syllabus below.

Eligibility Criteria:

- Degree: B.E., B. Tech, M.E., M. Tech., M.Sc., MCA or MCM
- Passout year: **2024**
- Branch: Any
- You don't need a minimum percentage to apply for The Infosys Certification.

InfyTQ Pattern/ InfyTQ Selection Process

1. Qualifier round

- Qualifier Round is the first round of Infosys Certification examination.
- It is a mandatory examination which will test your knowledge on Programming and Database Management and will include Aptitude questions as well.

- Clearing the Qualifier Round ensures your eligibility to take Infosys Certification.

2. The Certification Round

It will have a mix of objective and hands-on questions to be answered in 3 hours.

The questions are divided into three sections:

- **Section I – Java/Python Hands-on – 2 questions**
- **Section II – Java/Python Multiple Choice Questions – 10 questions**
- **Section III – Database Management Systems – 10 questions**

Important:

- The questions will be based on the programming language (Java/Python) selected at the time of booking the test slot.
- There will be no negative marking in the Certification Round examination.
- If you score **65% or above** in this round and clear a few post-round necessary checks, you will have the option to either appear in the Advantage Round or appear in a techno-behavioral interview for the Systems Engineer role at Infosys and become an Infosys Certified Software Programmer.

---

3. The Advantage Round

- **Java/Python Programming Question 1 - 50 Marks**
- **Java/Python Programming Question 2 - 75 Marks**
- **Java/Python Programming Question 3 - 100 Marks**

Important:

- This round is an advanced test that will assess your **programming and other technical skills**.
- It comprises three programming-based questions of varying difficulty levels to be answered within **three hours.**
- Each question will have a **different weightage of marks.**
- You can chose any of the programming language to take Advantage Round on the day of the test
- Candidates who clear the Advantage Round will get a **pre-replacement interview opportunity** for either the **Specialist Programmer or the Digital Specialist Engineer role** based on their performance in this round.

---

4. InfyTQ Behavorial Interview

This interview will be conducted for **System Engineer** role with **3 LPA package.**

---

5. InfyTQ pre-placement interview

This interview will be conducted for below mentioned roles and packages:

- **Specialist Programmer - 9.5 LPA**
- **Digital Specialist Engineer - 6.25 LPA**

InfyTQ Important Topics/ InfyTQ Syllabus

- Java/Python Programming basics
- OOP Basics
- Arrays and String
- Polymorphism
- Recursion
- Algorithms
- Control Structure
- Collection
- Functions
- Nested If-Else conditions
- Inheritance
- Method overriding

DBMS Concepts: Table Properties, Data Types, Foreign Key, Primary Key, Candidate Key, DDL,DML,DCL Commands, Join and Group by Concept, Normalization, MongoDB.

LTI Pattern & Syllabus

07 January 2023
Check below information for Recruitment process and important topics for LTI

Job Role: Graduate Engineer Trainee

Packages:

- **4 LPA**
- **5 LPA**
- **6.5 LPA**

Eligibilty Criteria:

- Degree & Branch: B.E / B.Tech / M.E / M.Tech – all branches with excellent technical knowledge & hands-on experience in coding.
- Percentage: 60% & above or equivalent CGPA in 10 th , 12 th/Diploma & Graduation.
- Backlog/Re-attempts: No standing arrears at the time of recruitment process, 10 th & 12th examinations – In 1 st attempt only, No re-attempts/ATKTs/backlogs/arrears allowed in the final semester of any course.

- Course type: Full time courses only.
- Academic Gap: Academic gap allowed only after the completion of the entire course • No gap allowed in the middle of the course & No year drop allowed.
- Age Criteria: For BE/B.Tech - Date of birth > = 1 st July 1999, For M.E/M.Tech - Date of birth > = 1 st July 1997
- University: UGC / AICTE approved Institutes only
- Flexibility: Flexibility towork in any technology/work-shift/domain and work from any development center/partner premise/customer location as per business needs.
- Service Agreement: No Service Agreement
- Separation Criteria: Non-performance during classroom training/on the job phase is subjected to separation from the organization.

Selection process:

1. Online test:

Day 1 – Cognitive Assessment (4 LPA)

- Quantitative
- Logical
- Verbal
- Technical MCQs

Note: 4 LPA package is only for candidates clearing Day-1 & Spoken English assessment on Day2.

Day 2 -Online Coding Challenge

Level-1: (5 LPA)

Spoken English + 1 Coding question (Medium).

Note: 5 LPA package is only for candidates clearing Day-1 & Day-2 (Level-1) assessments.

Level-2: (6.5 LPA)

1 Coding question (Difficult)

Note: 6.5 LPA package is only for candidates clearing Day-1 & Day-2 assessments.

Important Topics

Quantitative:

1. Algebra
2. Time & Work

3. Time, Speed & Distance
4. Arithmetic
5. Percentage
6. Average
7. Profit & Loss
8. Geometry

Logical:

1. Directions
2. Coding and Decoding
3. Statement Assumption
4. Seating arrangements
5. Data Arrangements
6. Odd one out
7. Ranking or position of a person
8. Statement Conclusion
9. Letter and Number series.
10. Visual reasoning

Verbal:

1. Sentence Improvement
2. Error Identification
3. Synonyms
4. Antonyms
5. Fill in the blanks(words, articles, prepositions)
6. Spellings
7. Reading Comprehension

Technical:

1. C Programming
2. OOPs concepts
3. DBMS, RDBMS concepts
4. Data structures (Linked list, Queue, Stacks)
5. Basics of Operating System
6. Scheduling Algorithms
7. Networking (LAN/ MAN/ WAN/ OSI layer)
8. Web concepts
9.

Mindtree
Welcome to possible

Mindtree (Graduate Engineer Trainee) Pattern and Syllabus

07 January 2023
Check below information for Recruitment process and important topics for Mindtree

Job Roles and packages:

1. **Graduate Engineer Trainee / Post-Graduate Engineer Trainee - 4 LPA**
2. **Graduate Engineer Trainee / Post-Graduate Engineer Trainee - 5 LPA & 6.5 LPA**

Note:

1. *No service agreement*
2. *Candidates will receive Rs. 26000 as a stipend during learning program*

Eligibilty Criteria:

- B.E/B.Tech/ME/M.Tech (All Branches of Engineering) and MCA, M.Sc. (five-year integrated CS/IT) full-time/regular courses
- Academic cutoff: Above 60% or 6 CGPA in 10th, 12th and graduation with no active backlogs.
- No gaps during engineering
- Students must have PAN card at the time of joining
- Student should be an Indian national

Selection Process for 4 LPA package:

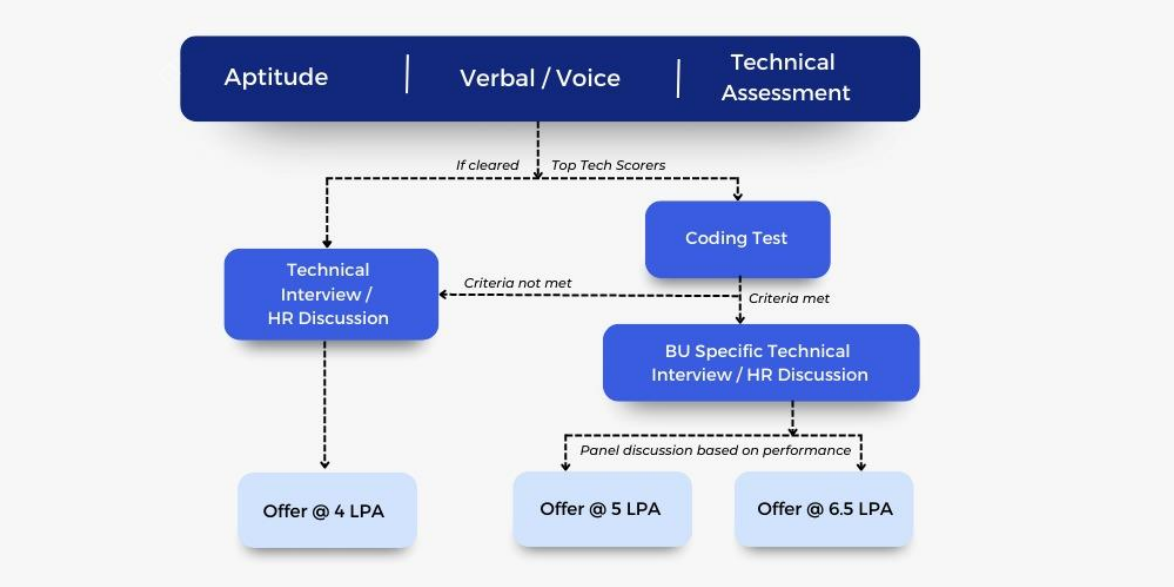
1. Online Aptitude Test
2. Verbal/Voice Test
3. Technical Assessment
4. Technical Panel Interview / HR discussion

Selection Process for 5 LPA & 6.5 LPA package:

1. Online Aptitude Test
2. Verbal/Voice Test
3. Technical Assessment
4. Coding Test
5. Technical Panel Interview / HR discussion

Note:

- *Candidates clearing Online Aptitude Test + Verbal/Voice Test + Technical Assessment will go for **4 LPA package** Interview process.*
- *Top scoreres of 1st round will go through Coding Test. Qualifying candidates from Coding Test will go for BU- Specific Technical and HR Disucussion (**5 LPA & 6.5 LPA package)***
- *Candidates not meeting desired score in coding test will again for **4 LPA package** interview.*



Exam pattern

1. Online Aptitude Test:

- Quantitative Ability (Approximately 15 Questions)
- Logical Ability (Approximately 15 Questions)
- English Ability (Approximately 15 Questions)

2. Verbal/Voice Test:

- This test will be checking your english communication skills

3. Technical Assessment:

- This test will be checking your technical knowledge like programming concepts, OOPs, DSA concepts, OS, CN etc.

4. Coding Test (For 5 & 6.5 LPA)

- Programming skills of students will be assessed in this test.

Important:

1. *We can navigate to any question within given time*
2. *No negative marking*

Important Topics

Verbal Ability:

- Synonyms
- Antonyms
- Error identification
- Fill in the blanks
- Reading Comprehension
- Sentence Improvement

Logical Ability:

- Coding-Decoding
- Data sufficiency
- Complete the series
- Directional Sense
- Analogy
- Odd man out

Quantitative Ability:

- HCF and LCM
- Numbers, Decimal Fractions and Indices
- Time work, Pipes and Cisterns
- Permutation & Combination
- Average
- Time, Speed, Distance
- Probability
- Profit Loss

Coding:

- Data Structres
- Array
- Strings
- Searching and Sorting
- Swapping
- Basic

Mindtree (Software Engineer) Pattern and Syllabus

07 January 2023
Check below information for Recruitment process and important topics for Mindtree (Software Engineer)

Job Role: Software Engineer

Packages:

- 4 LPA
- 5.5 - 6.5 LPA

Eligibilty Criteria:

- Degree: BE/BTech
- Branch: only CS/IT/ Circuital branches
- Academic cutoff: 6 CGPA or 60% throughout 10th, 12th and Graduation with no active backlogs
- No gaps during engineering
- Students must have PAN card at the time of joining
- Student should be an Indian national

Note:

1. *No service agreement*
2. *Candidates will receive Rs. 26000 as a stipend during learning program*

Selection process:

1. Aptitude Test
2. Coding Test and BOT Interview
3. Technical Interview
4. HR Interview

Exam Pattern

Aptitude Test:

- Logical Ability (20 Min)
- Quantitative Ability (20 Min)
- Computer Programming MCQs (35 Mins)
- CEFR Framework- Voice Assessment (20 Min)

What is CEFR Framework- Voice assessment:

There will be 18 questions in total.

- Reading the sentences showed
- Fill in blanks
- A situation will be given to us and few questions will be asked. We need to answer those questions
- A topic will be shown to us on screen for 20 sec and we need to talk about the topic for 1 min

Students qualifying in this test will go for next round of Coding test and BOT Interview which is for 5.5 - 6.5 LPA.

Coding Test:

- **2 Coding Questions (45 Min)**

BOT Interview:

There will be 8 questions asked by computerized system (4 questions each for Technical and HR)

Sample Questions are as below

Technical:

1. What is data structure?
2. What are Time complexities of merge sort and quick sort?
3. Difference between them, etc

HR:

Situations based questions as below

1. You need to catch a flight tomorrow, then what arrangements will you do?
2. What will you do, if one of your team mates is not performing well?

Important Topics

Logical Ability:

- Coding-Decoding
- Data sufficiency
- Complete the series
- Directional Sense
- Analogy

- Odd man out

Quantitative Ability:

- HCF and LCM
- Numbers, Decimal Fractions and Indices
- Time work, Pipes and Cisterns
- Permutation & Combination
- Average
- Time, Speed, Distance
- Probability
- Profit Loss

Computer Programming MCQs:

- OOPS concepts
- Data Types
- Procedure, functions and scope
- Complexity Theory
- Arrays, Linked Lists, Trees, Graphs
- Stacks, Queues
- Hash Tables
- Heaps
- Searching and Sorting

Coding:

- Data structures
- Operations on array
- Operations on strings
- Object-Oriented Programming (OOPS)

Mu Sigma
DO THE MATH

Mu Sigma Pattern & Syllabus

07 January 2023

Check below information for Recruitment process and important topics for Mu-Sigma

Mu Sigma Recruitment process:

- MuApt test
- Case Study
- Personal Interview

Mu Sigma Exam Pattern

Sections	Number of Questions	Time allotted (Min)
MuApt (Aptitude test)	28	45 (Combined)
General knowledge	5	
Case study	4	75

Section wise details

MuApt is further divided in 6 subsections:

1. **Aptus** (Quantitative Aptitude)
2. **Latus** (Logical Aptitude)
3. **Tekhne** (Technical Aptitude Questions)
4. **Personalis** (Personality based assessment)
5. **Communicationis** (Written COmmunication skills)
6. **Industria** (Industry based knowledge)

General Knowledge:

This section has general knowledge based questions.

Case study:

This is a Business communication round, in which candidate's perspective is checked on various business related situations. This round is conducted by **Talview**. It is a computerised test in which student has to give answers to questions related to business conditions.

Types of questions being asked in Talview:

Is optimism good or bad?
If you want to open a business, then which place will you choose?
How would you manage your team if you are a team leader?
(Note: There will not be any correct answer to any of these questions. You just have to project your view on given topics)

Important topics

- **Aptus (Quantitative Aptitude):**

1. Time and Work
2. Data interpretation
3. Ratios & Proportions
4. Equations
5. Profit & Loss

6. Time, Speed & Distance
7. Average
8. Progressions
9. Geometry

- **Latus (Logical Aptitude):**

1. Visual Reasoning
2. Attention to Detail
3. Blood Relationships
4. Statements & Conclusions
5. Flowcharts
6. Logical Reasoning

- **Tekhne (Technical Aptitude Questions):**

In this section, **5 Psuedocode questions** will be asked to check your programming fundamentals.

- **Personalis (Personality based assessment):**

This will be like a situation reaction test. You need to express how would you react in the given situation.

- **Communicationis (Written Communication skills):**

1. Grammar
2. Sentence Correction
3. Reading Comprehension
4. Synonyms & Antonyms

- **Industria (Industry based knowledge):**

These questions will be based on the industrial knowledge. Mostly questions related to Data Science or Data Analytics will be asked, as Mu SIgma mostly works in these fields.

(Note: A document related to industrial topics would be shared with you 2-3 hours before exam. You have to go through it before appearing for test)

Persistent Pattern & Syllabus

07 January 2023

Check below information for Recruitment process and important topics for Persistent

Persistent Hiring Process

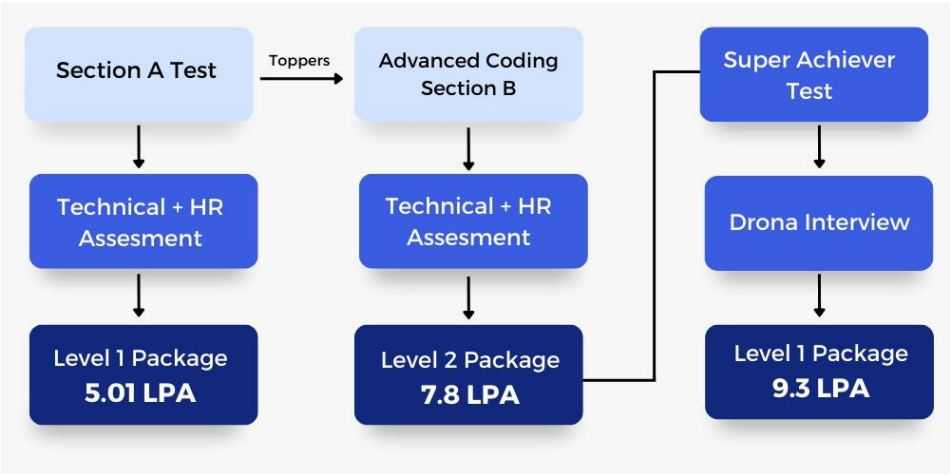
Packages:

1. Level 1 package: 4.71 LPA + 30K (Based on performance)= 5.01 LPA
2. Level 2 package: 7.5 LPA + 30K (Based on performance)= 7.8 LPA
3. Level 3 package: 9.0 LPA + 30K (Based on performance)= 9.3 LPA

Test pattern

Stages	Test	Time (Min)
Section A	Objective Test	20
	English Language Test	15
	Logical Ability Test	15
	Basic Programming	45
Section B	Advance Coding	60
Section C	Technical + HR Interview	

Selection process



The toppers of Section A test will be getting opportunity for higher package.

Toppers will undergo Section B test. Remaining candidates will undergo interviews for Level 1 package

Section B: Advance Coding (60 Mins)
Those who clear Section B test, will undergo interviews for Level 2 package.

Level 2 package candidates will be given opportunity to appear in Super Achiever test followed by Drona Interview. Succesfull candidates will get Level 3 package.

What is Drona Interview?: Top interview panelists from Persistent will interview candidates passing Super Achiever test.

Important technical topics:

- DBMS
- Basic concept, Data model, Views, Operation, TRC, DRC, Architecture
- Computer Architecture
- Operating Systems
- SQL
- ERD, Key, Database, SQL, Joins, Indexing
- DSA
- Advanced SQL
- Computer Network
- Reference Network Model and Protocols, Routing
- Computer Architecture
- Input/ Output

Logical Ability- Important topics:

- Data arrangement
- Odd man out
- Directions
- Coding-Decoding
- Syllogism
- Blood relation

Verbal ability- Important topics:

- Grammar
- Error spotting
- Synonyms
- Antonyms

Basic programming section- Important topics:

- Automata
- OOPS concepts
- Data Types
- Iteration, Recursion, Decision
- Procedure, functions and scope
- Complexity Theory
- Arrays, Linked Lists, Trees, Graphs
- Stacks, Queues
- Hash Tables
- Heaps
- Searching and Sorting

Revature Pattern & Syllabus

07 January 2023

Job Role: Software Engineer

Package: 4 to 6 LPA

Eligibility Criteria:

- Graduate from Computer Science/ IT / Circuital background (B.E. / B. Tech / M.E / M. Tech / MCA / MSc)
- Min 60% in PG / UG degree without arrears
- Min 60% in 10th and 12th board exams
- Good communication skills

Test Pattern:

1. Aptitude and Logical reasoning: 5 Que (5 Min)
2. English Pro: 5 Que (5 Min)
3. Technical Fundamentals: 14 Que (14 Min)
4. Programming Ability: 2 Que (20 Min)
5. Problem Solving Ability: 3 Que (45 Min)

Important Topics

Aptitude and Logical reasoning:

- Percentage
- Simple Interest & Compound Interest

- Time, Speed & Distance
- Averages
- Time and Work
- Pattern recognition
- Data sufficiency
- Blood Relation
- Analogy
- Calendar based questions

English Pro:

- Synonyms
- Antonyms
- Error Identification
- Sentence Correction
- Sentence Improvement
- Reading Comprehension

Technical Fundamentals:

- OOPS concepts
- Data Types
- Procedure, functions and scope
- Complexity Theory
- Arrays, Linked Lists, Trees, Graphs
- Stacks, Queues
- Hash Tables
- Heaps
- Searching and Sorting

Programming Ability:

- Data Structure Concepts
- Operations on Array
- Questions on Matrices
- Linked list
- Circular linked list
- String
- Stack/Queue
- Sorting and Searching
- Linear and binary search
- Greedy Algorithms

Samsung Pattern & Syllabus

07 January 2023

Job Role:- R& D Developer

Package:- CTC: 8 LPA

(Additional Benefits: Relocation Reimbursement, Initial 1 week of Company Sponsored Accommodation)

Eligibility Criteria:

- CGPA – 7 throughout
- Streams Required:- B.Tech / M.Tech / MCA / M.Sc (CSE, ECE, EEE, IT, M&C)
- Should not have interviewed with SRI-B in the last 6 months

---

Selection Process:

Shortlisted candidates to undergo the following selection process

- Samsung Online Challenge (3 Hrs)
- 2 Rounds of Technical Interviews
- HR Interview

Required Skills:

Programming Skills well versed in C/C++/Core Java.

Candidate should have a strong understanding of Data Structures, Advanced Algorithms, Problem Solving & Debugging Skills.

Global Samsung Aptitude Test:

- Samsung career can be started by passing the special exam conducted by Samsung known as GSAT (Global Samsung Aptitude Test).
- It is the first step of the Samsung Recruitment Process.
- GSAT consist of 50 aptitude questions which have to be completed in 1 hour.
- Along with the aptitude questions, there will be some Reasoning questions, to test your logical power.

Section wise details:

- Section 1: Quantitative ability comprising of Data Interpretation (pie chart, bar chart, line graph), percentage, profit and loss, time and work etc.

- Section 2: (Reasoning test) Puzzles.

Coding Test:

- Java: consisting of questions from multi-threading, collections, android etc.
- C/C++: consisting of 20 questions from C/C++, data structures and operating systems.

The selected candidate(s) would be primarily working on Software R&D projects and they will be further mapped to any of the below-mentioned CoEs based on your interest and business requirements.

- **Intelligence (Voice, Vision, OnDevice, Data)**
- **Multimedia (Camera, AR)**
- **IoT (Cloud, IoTvity)**
- **Modem (5G, Network)**
- **Services (Server Tech, Web)**

TCS NQT Pattern & Syllabus

07 January 2023

Check below information for Recruitment process and important topics for TCS NQT

TCS Ninja & Digital Hiring for 2023 batch has started!

- TCS has launched TCS Ninja & Digital hiring for 2023 Batch Students through which they will hire 2023 batch students
- TCS NQT is following the Integrated Test Pattern (ITP) from this year. TCS ITP Pattern has been recently launched by TCS so that they can offer Ninja and Digital Roles to students using a single test.
- The Important Topics and number of questions for each section shared in this post are predicted by Talent Battle Team based on the experiences and previous on-campus drives conducted by TCS for Ninja and Digital Role
- If we get any more updates regarding important topics and the number of questions in each section we will immediately update you on our social media platforms.

Watch the below video for more details about Free TCS Ninja Hiring for the 2023 Batch!

For More Discussions and Updates about TCS-NQT, you can always join our Telegram Discussion Group and Follow Us on Instagram. ***Click here*** for all groups and pages links.

TCS NQT Test Pattern 2023 (Integrated Test Pattern)

	Section	Time	Number of Questions
PART-A Foundation Section	Traits	1 min	1 Question
	Numerical Ability	75 mins	25 question
	Verbal Ability		20 questions
	Reasoning Ability		20 questions
PART-B Advacned Section	Advanced Quantitative Ability	20 mins	10 questions
	Advanced Reasoning Ability	15 mins	10 questions
	Advanced Coding	55 mins	2 questions
	Total	166 mins	

TCS-NQT Important Topics and Syllabus 2023 Batch

Numerical Ability Foundation Section:

- Statistics
- Percentage
- Time & Work
- Area & Mensuration
- Number System
- Linear Equations
- Data Interpretation
- HCF LCM
- Simple Interest
- Compound Interest
- Profit and Loss
- Speed, Distance, Time
- Ratio and Proportion
- Permutation and Combination
- Probability
- Partnership
- Mixtures

Level of Difficulty: Easy-Medium

Reasoning Ability Foundation Section:

- Coding and Decoding
- Cuts and unfolds
- Attention to detail
- Unboxing a cube
- Analogies
- Blood Relation
- Data Arrangements
- Visual Reasoning
- Venn Diagrams
- Syllogisms
- Statement Assumption
- Statement Conclusion

Level of Difficulty: Medium

Verbal Ability Foundation Section:

- Reading comprehension

- Sentence correction
- Sentence completion
- Error Identification
- Synonyms & Antonyms
- Sentence/Paragraph Re-arrangements
- Fill in the blanks
- (Prepositions/Articles Tenses/Conjunctions)

Level of Difficulty: Easy-Medium

Advanced Quantitative Aptitude (Advanced Section):

- Averages
- Profit Loss
- HCF LCM
- Permutation and Combination
- Probability
- Geometry
- Mensuration
- Puzzles
- Partnership
- Number System
- Time & Work
- Time, Speed, Distance
- Simple & Compound Interest
- Progressions
- Logarithms

Level of Difficulty: Hard

Advanced Reasoning Ability (Advanced Section):

- Data Arrangements
- Visual Reasoning
- Venn Diagrams
- Syllogisms
- Statement Assumption
- Statement Conclusion
- Seating Arrangements
- Spatial Reasoning
- Puzzles
- Cuts, Folds, Cubes-based questions

Level of Difficulty: Hard

Advanced Coding:

- Operators
- Looping statements
- Object-Oriented Programming (OOPS)
- Threading
- Functions
- Recursion
- Algorithms
- Arrays
- Control statements
- Strings
- Data Structures: Linked List, Stack, Queue, Trees, and Graphs
- Scenario and Logical Based Problems are asked
- Matrix Operations and Set Theory
- String Operations: Backward and Forward Shift
- Multidimensional Arrays
- Flow Control Loops
- Number Series, Pattern Series
- Shortest Path Calculation Logic
- Algorithms
- Data Structures
- Time and Space Complexity

Level of Difficulty: Hard

TCS Smart Hiring 2023 Pattern & Syllabus

11 January 2023

Eligibility Criteria:

- Degree: BCA, B. Sc (Math, Statistics, Physics, Chemistry, Electronics, Biochemistry, Computer Science, IT), B. Voc in CS / IT
- Percentage:50% or 5 CGPA throughout
- One backlog is permitted
- Overall academic gap should not exceed 2 years
- Only Full-Time course
- Minimum age – 18 years and Maximum age - 28 years

Hiring Process:

1. In Center Online Aptitude test
2. Interviews

Test Pattern:

There will be 3 sections in test as below.

- **Verbal Ability**
- **Reasoning Ability**
- **Numerical Ability**

Note: The duration of the assessment is 50 minutes

Important Topics

Verbal Ability:

- Reading comprehension
- Sentence correction
- Sentence completion
- Error Identification
- Synonyms & Antonyms
- Sentence/Paragraph Re-arrangements
- Fill in the blanks
- (Prepositions/Articles Tenses/Conjunctions)

Reasoning Ability:

- Analogies
- Blood Relation
- Data Arrangements
- Visual Reasoning
- Venn Diagrams
- Syllogisms
- Statement Assumption
- Statement Conclusion
- Coding and Decoding
- Cuts and unfolds
- Attention to detail
- Unboxing a cube

Numerical Ability:

- HCF LCM
- Simple Interest
- Compound Interest
- Profit and Loss
- Speed, Distance, Time
- Ratio and Proportion
- Permutation and Combination
- Probability
- Partnership
- Mixtures
- Statistics
- Percentage

- Time & Work
- Area & Mensuration
- Number System
- Linear Equations
- Data Interpretation

Tech Mahindra Pattern & Syllabus

11 January 2023

Check below information for Recruitment process and important topics for Tech Mahindra

Package:

1. **3.5 LPA (for students clearing regular selection process)**
2. **5.5 LPA (for students clearing Supercoder selection process)**

Eligibilty Criteria:

- Degree: BE/B.Tech
- Branches: CSE/IT/ECE/Electronix/EEE
- No Active backlogs allowed
- Minimum 60% score in 10th
- Minimum 70% score in 12th and graduation
- Education gap: Maximum of 1 Year

Bond and other details:

- Candidates will be on **probation for 3 months**
- Candidates clearing regular selection process will get CTC of 3.5 LPA
- Candidates clearing Supercoder selection process will get CTC of 5.5 LPA
- Candidates will have to sign an indemnity bond of INR 1 Lakh for a mandatory period of **service of 2 years** from date of joining

---

Selection process:

Online test:

1. Logical Ability: 12 Que (15 Min)
2. Quantitative Ability: 12 Que (15 Min)
3. Essay writing: 1 topic (25 Min)

Technical Section:

1. Computer Programming: 12 Que (15 Min)
2. Computer Science: 12 Que (15 Min)
3. Automata: 2 Que (45 Min)
4. Personality test: 72 Que (15 Min)

Important Topics

Logical Ability:

1. Analogies
2. Coding decoding
3. Data sufficiency
4. Directional sense
5. Symbols directives

Quantitative Ability:

1. Permutations and Combinations
2. Time and Work
3. Averages
4. Logarithms
5. Numbers
6. Equations
7. Probability

Essay Writing:

- Essay can be asked on any normal topic which is to be written within 25 Min.
- The structure of essay should be short and crips
- Avoid Spelling mistakes
- Avoid Grammatical mistakes

Computer Programming & Computer Science:

- Programming Fundamentals
- Psuedocode
- Data Types
- Operators
- Arrays
- Functions
- Pointers
- Basics of OS
- Basics of Data Structure
- Loops
- OOPs Concepts
- Stack
- Sorting
- Tree Functions

Automata:

- Fundamentals of Programming langauges(C, C++, Java)
- Array
- Strings
- Recursion
- Function
- Flow Control
- Linked list
- Graph

Personality Test:

- You will be given situation based multiple choice questions.
- You need to select the most appropriate answer accordingly

Virtusa Pattern & Syllabus

07 January 2023
Check below information for Recruitment process and important topics for Virtusa

Roles and Packages:

1. **Associate Engineer- 4.5 LPA**
2. **Associate Software Engineer- 7 LPA package [6.5 LPA + 50K retention bonus every year]**.

Eligibility Criteria:

- Degree – BE / B Tech / MCA / M Tech
- Stream – CS / IT / ECE / IS
- Cut Off – 60% in 10th/ 12th or Diploma and in Graduation
- Year Of Passing – 2023

Selection Process:

1. Online Technical Assessment
2. Power coding round
3. Technical Interview
4. HR Interview

Initial Technical Assessment

Aptitude: Logical,General Aptitude, Quantitative Analysis (10 Que)

Computer Fundamentals:

1. Data Structures (10 Que)
2. Object Oriented Programming (15 Que)
3. Operating System (10 Que)
4. RDBMS & SQL (10 Que)

Pseudocode: Pseudocode + Basic Programming (10 Que)

Communication: Reading and Writing (5 Que)

Coding: Easy Level questions (C, C++, Java, Python) (4 Que)

Power Coding: Medium Level Questions (3 Que)

Those candidates, who clears this assessment will go for Technical and HR interview in the subsequent stages.

Important:

- Candidates will be able to move to the next section only once they finish particular section in sequence.
- Candidates will not be allowed to toggle between 2 or multiple sections.
- Total duration is 180 mins, and each section is timed.
- Candidates who clears Online assessment **except Power Coding** will get a chance for interview of **5 LPA package [4.5 LPA + 50K retention bonus (Not sure)]**
- Students who clears the online assessment with **Power Coding** round will get a chance for interview of **7 LPA package [6.5 LPA + 50K retention bonus every year]**.

Important Topics for Aptitude section:

1. Averages
2. Percentage
3. Time work
4. Profit loss
5. Who is taller than whom type questions
6. Time speed distance
7. Directions
8. Verbal data interpretation
9. Age
10. Relations

11. Code words

Important Topics for Computer Fundamentals section:

OOPs:

1. Programming Fundamentals
2. Objects
3. Classes
4. Inheritance
5. Abstraction
6. Polymorphism
7. Encapsulation

Data structures:

1. Trees
2. Greedy Algorithms
3. Sorting
4. Time Complexity
5. Linked List
6. Graph
7. Dynamic programming

RDBMS & SQL:

1. Database Relationships
2. Database Operators
3. Types of Joins
4. Sequential Queries
5. Subqueries
6. Keys
7. Constraints
8. Relational Algebra

Important Topics for Pseudocode section:

1. Programming fundamentals
2. Looping
3. Arrays
4. Recursion
5. Functions
6. Bitwise Operators
7. Increment and Decrement Operator
8. Conditional Statements

Note: More weightage is given to Computer Fundamentals section

Wipro Pattern & Syllabus

07 January 2023
Check below information for Recruitment process and important topics for Wipro

Job Role: Project Engineer

Packages:

1. **Elite: 3.5 LPA**
2. **Velocity: 5.5 LPA + 1 Lakh Merging Bonus**

Service agreement: Applicable for 12 months post joining @ INR 75,000 on a pro-rata basis

---

Eligibility Criteria:

- A degree in B.E or B.Tech is compulsory
- Year of passing: 2023
- All Branches are allowed, **Except -** Agricultural & Food Engineering, Aqua Cultural Engg., Ceramic Technology, E-waste Resource Management, Exploration Geosciences, Fire and Safety, Retail (fashion & textile), Highway Technology, Integrated Master of Computer Application, Logistics, Ocean Engineering, Paint Technology, Printing, Rubber Technology, Urban Design, Water Management, Water Resources Development & Management and Naval Architecture
- 5 years of Integrated M.E/M.Tech
- 10th/12th/Degree: Above 6 CGPA/ 60%
- Should be from a Full-time Degree course recognized by the Central/State Government of India.
- No Gap in graduation
- A maximum of one active backlog is allowed till the Assessment stage. Candidates are expected to clear the backlogs by 8th semester
- Candidates will be invited for the test process, who have completed 3 months cool-off period from the previous assessment
- Should be an Indian Citizen or should hold a PIO or OCI card, in the event of holding a passport of any other country.
- Bhutan and Nepal Nationals need to submit their citizenship certificate.

Selection Process:

1. Online Assessment
2. Business Discussion

Exam Pattern

1. Online Assessment comprising of 3 sections (Duration-128 minutes):

- Aptitude Test - Logical Ability, Quantitative Ability, Verbal Ability (Duration: 48 mins)
- Written Communication Test - Essay writing (Duration: 20 mins)
- Online Programming Test - Two programs for coding (Duration: 60 mins)

Note: Candidates can choose any one of the programming languages for the coding test: Java, C, C++, or Python

2. Business Round:

This round is nothing Technical and HR interview.

Important Topics

Logical Ability:

- Coding Decoding
- Data Sufficiency
- Directional Sense
- Logical Word Sequence
- Selection decision tables
- Puzzles
- Coding pattern and Number series pattern
- Analogy
- Logical word sequence

Quantitative Ability:

- Divisibility
- HCF and LCM
- Numbers
- Decimal fractions
- Profit & Loss
- Simple & Compound Interest
- Time, Speed & Distance
- Logarithms
- Probability
- P&C

Verbal Ability:

- Synonyms
- Antonyms

- Contextual vocabulary
- Error identification
- Sentence improvement and correction
- Reading Comprehension

Programming Test:

- Data Structure Concepts
- Operations on Array
- Questions on Matrices
- Linked list
- Circular linked list
- String
- Stack/Queue
- Sorting and Searching
- Linear and binary search
- Greedy Algorithms

ZOHO Pattern & Syllabus

07 January 2023

Job Role: Associate System Engineer

Eligibility Criteria:

- Degree: B.Tech/ BE
- Branches: Computer Science, Information Science / IT, Electronics and Communication, Electrical and Electronics, Electronics and Instrumentation
- Academic Scores:- 60% Throughout 10th , 12th and Gradution

Selection Process: -

1. Online Aptitude Test
2. Technical Interview
3. H.R. Interview

Online Aptitude Test: -

1. General Aptitude: 10-20 Que (10-20 Min)
2. C Programming Aptitude: 20-30 Que (20-30 Min)

Important Topics

General Aptitude:

- Time
- Work
- Profit & Loss
- Speed and Distance
- Percentage
- Ratios and Proportions
- Average

C Programming Aptitude:

- Nested Loops
- Recursions
- Flowcharts
- Pointers

Note:-

- *Time allotted for the written exam is 50-60 minutes.*
- *There is no negative marking in the paper.*

Technical Interview

ZOHO Interview Questions for Technical Round will be based on subjects of your interest or based on projects you have done. You need to have complete knowledge of all the projects you havewritten in your resume. You will be asked fundamental questions from C, C++, Pseudo Code, and DBMS, Networking, OS, etc

---

HR Interview

In this interivew, only communication skills and presentation skills are checked. The questions will be related to your personality, family, education, hobbies, internships, etc. They will also ask questions based on location preference and higher education interest also.

ZS Associates Pattern & Syllabus

07 January 2023

Check below information for Recruitment process and important topics for ZS Associates

Job Profiles:

- Data analysts Associate
- Business Operations Associate
- Business Technolgy Analyst
- Data Science Analyst

Package: 6.5 LPA (Package varies depending on job profiles)

Eligibilty Criteria:

- Degree: BE, B.Tech, MBA, MCA, ME, M.Tech
- Academic score: 60% or 6 CGPA throughout 10th, 12th/Diploma and Graduation
- No active backlog
- Maximum gap of 2 years is allowed

Exam Pattern

1. Online test (Total 60 Questions, Time 75 Mins):

- Quantitative Analysis:15 Questions where 2 Questions carry extra points and are Star Marked.
- Verbal Ability (15 Questions)
- Data Interpretation (15 Questions)
- Logical Reasoning (15 Questions)

Note: No negative marking

---

2. Behavioral round:

This test happens on Talview platform.

- 8 video questions: In this, candidate gets a question on screen. Candidate has to form an answer and narrate it in 3 minutes, which will be recorded and evaluated

- 3 Written questions: These questions will be assessing your behavioral pattern based on your answer.

---

3. Interview round:

Interview round divided into 3 rounds.

- **Case round:** Candidate will be given a business case study. The candidate has to understand and analyse the problems and requirements within 30 mins and explain the analysis and approach of solving the problem to interviewers.
- **Behavioural interview:** Questions will be asked based on resume. Certain brain teasers, guesstimates will be given to candidates to check his/her behavioral pattern and intellectual level.
- **Fit round:** Candidates will have an opportunity to meet senior ZS employees and discuss about career opportunities, path and growth.

Important Topics

Quantitative Analysis:

- Number Systems
- Percentages
- Venn Diagram
- Ratio & Proportions
- Averages
- Equations
- Set Theory

Verbal Ability:

- Reading Comprehension
- Sentence Completion
- Sentence Arrangements
- Error Detection
- One Word Substitution

Data Interpretation:

- Bar Graph (5 Questions)
- Pie Chart (5 Questions)
- Tables (5 Questions)

Logical Reasoning:

- Data Arrangement
- Distance & Direction
- Visual Reasoning

- Clocks and Calendar
- Blood Relations
- Coding-Decoding

HYUNDAI MOBIS

STAGE-1	MCQ	APTITUDE 5 Q	VERBAL 5 Q	CORE CONCEPTS 5 Q	With time limit to each section
STAGE-2	INTERVIEW –TR	BASIC QUESTIONS ON C	MICROPROCESSORS| MC	DIGITAL ELECTRONICS	LIVE CODING ON BASIC QUESTIONS
STAGE-3	PRESENATION SKILLS	We have to select a topic from list of topics given by company and present them with the topic within 5-6 slides and 5 mins talk.they will ask few questions on our presentation			
STAGE-4	HR	Self intro	And common HR Questions		
STAGE-5	PSYCHOMETRIC	30 questions	On our behavior and with a time limit of 30 mins		
	All 5 rounds are elimination rounds
